News For The Employees of Data General

June 14, 1985

Data General Scholarship Winners Announced

The children of 10 company employees are winners of 1984 Data General Scholarships.

The scholarships are awarded annually in conjunction with the National Merit Scholarship Corporation, a non-profit organization that selects the recipients and administers the scholarships. The scholarships are awarded on the basis of the academic excellence of the children of Data General employees.

The Westboro winners of the four-year scholarships are: **Michael Abbott**, son of **John Abbott**, manager of Software Documentation. Michael will attend Cornell University.

Cynthia Boylen, daughter of **Janet Boylen**, receptionist in Lobby 14A, will attend the University of Massachusetts.

Deidre Deignan, daughter of **Pauline Deignan**, Data Entry supervisor in Data Systems and Communications, will defer studies at Holy Cross College to spend next year as a foreign exchange student in Ecuador.

A graduate of Dover-Sherborn Regional High School, **Laura Jaeggi**, daughter of **Ken Jaeggi**, vice president and Chief Financial Officer, also received a Data General scholarship. She will enter Northwestern University this fall.

Jennifer St. Onge will enter Purdue University to study agricultural engineering. She is the daughter of Engineer **David St. Onge**.

Other scholarship winners from New England include: **Steven Coley**, son of **Rosemary Coley**, an inventory planner at Milford. Steven will study computer science at Hobart College.

David Mears, son of **Thomas Mears**, a computer test technician at Southboro, will study biomedical engineering at Boston University.

Maria Peterson will attend Mount Holyoke College. She is the daughter of **Christian Peterson**, training manager at Data General-Woodstock.

Winners are chosen on the basis of their academic record, leadership qualities, extra-curricular accomplishments, the school's recommendation, the student's self-description and the PSAT/NMSQT test scores.

Genuine Parts Installs 2000th Data General System

Data General President Ed de Castro and Bill Bentley, Vice President of North American Field Engineering, attended a recent dinner with Genuine Parts Company executives in Atlanta to celebrate GPC's 2000th Data General system installation. Above are (left to right): Cary Gacem executive vice president of administration at Genuine Parts Company; Ed de Castro and Tony Prontaut, Data General's account executive for Genuine Parts. Ed presented Genuine Parts with two plaques commemorating GPC's 1000th installation in Sitka, Alaska, and its 2000th installation in St. Croix, Virgin Islands.

Atlanta-based Genuine Parts Company (GPC), an Authorized Data General System Distributor in the automotive parts inventory control market, has installed its 2000th Data General system.

Genuine Parts is a \$1.7 billion-per-year distributor of automotive and industrial parts, and hardware and stationery products.

The company resells DESKTOP GENERATION and ECLIPSE computers with its own TAMS (Total Auto-

motive Management System) inventory control software to NAPA-affiliated jobber stores. These stores supply replacement parts to automotive repair shops, and to the public through retail sales.

"We entered the systems business in 1976 to streamline the inventory process for our jobber customers," says Jay Burnworth, GPC director of customer systems. "TAMS has been a success because it is truly a cost-effective system that can pay for itself."

Data entry at the point of sale generates a customer invoice and automatically updates the store's inventory and accounts receivable. Stock orders are requested as a result of a scan of the up-to-the-minute inventory figures. In addition, jobbers can closely monitor sales activity by utilizing TAMS to generate analysis reports.

Can Keep Fewer Items In Stock

The system allows the jobber to keep fewer items in stock, and assures that no part is overlooked when its supply is diminished. Jobbers with TAMS will order replenishment stock with their computer system, via telephone, from the computer at the GPC regional data processing center.

GPC distributes about 100,000 different parts through 65 nationwide distribution centers to more than 6,000 jobber stores. A typical store will carry about 16,000 items.

The TAMS system benefits jobbers with increased productivity of counter sales personnel and an accurate, efficient inventory management for better return on inventory investment.

The 2000th computer system was installed at Island Tires and Parts on St. Croix, Virgin Islands. The system consists of a Data General DESKTOP GENERATION Model 20, three display terminals and a printer.

As an Authorized Data General System Distributor, Genuine Parts is part of the System Supplier Program network of value added resellers. These businesses are experts in designing, marketing and supporting Data General system for specific markets.

MSIS Hotline

Marketing and Sales Information Systems (MSIS) Hotline is open to all MSIS system users needing office automation assistance. Just dial Westboro extension 6001 for support.

A Familiar Face

People Are Her Business

*Janet Boylen
Lobby A Receptionist*

Everyone knows Janet. She is the first person you see when you walk in the door to the "front lobby". Janet greets everyone with a smile and a congenial hello and to visitors she responds with a ready "Can I help you?"

Most visitors come to Data General's front door to keep an appointment with an employee, apply for a position with the company, or to deliver flowers, plants and bunches of balloons for celebrating employees. Janet has the pleasure of calling those to whom the gifts are intended. "I just tell them they have a package," says Janet who thoroughly enjoys the looks of surprise when she presents unsuspecting people with a gift.

"Sometimes I feel visitors think I know everything," admits Janet, reflecting on one question that readily came to mind. "One day a man came in and asked me if our computers run on bio-rhythm. Very casually I explained I didn't know and referred him to someone who could help him."

Started Six Years Ago In B Lobby

With Data General for six years, Janet spent her first year as the Lobby B receptionist. "When I was in Building B, it was new and quite empty. I watched it slowly become occupied and now it is overflowing," Janet volunteers. "I have seen the company grow so much in six years. It (Data General) has come a long, long way."

What is her personal life like? "Hectic," says the mother of five who is busy planning a wedding for one of her four daughters, Erin, a physical therapist at Marlboro Hospital. Rightfully proud of her son Danny, a captain in the U.S. Air Force, Janet says he flies a C-5, the largest airplane that hits the skies. "Just recently he flew President Reagan's private limousine home from Spain," she boasts.

Daughter Received Data General Scholarship

Another daughter, Cyndi, is one of this year's recipients of a Data General scholarship. She will enter the University of Massachusetts this fall and undoubtedly will run into sister Janet, who just completed her junior year at U-Mass.

Avid travelers Janet and husband Dan visited their daughter, Robin, while she was studying art history in Florence, Italy, two years ago. They also stopped in Paris. Residents of Stow for 26 years, Janet and Dan also like trips "to the ocean".

All In The Family

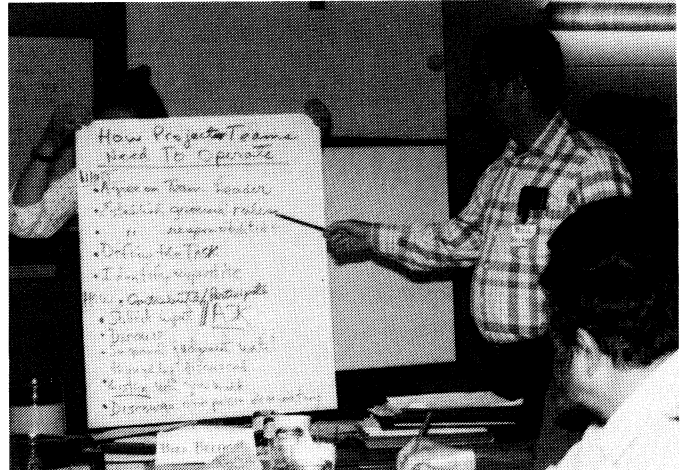

The Moura's are keeping Data General "all in the family." Eight members of the 11-member family work at Data General-Southboro, while one brother works in the Milford facility. Nelia (far left) first joined the company in 1974, with her parents and brothers following suit shortly thereafter. Says John Moura, "We feel a sense of loyalty to Data General as the company and its many benefits, including the Educational Assistance program, helped us get a start in the U.S. after coming here from Portugal 11 years ago." Family members working at Data General - Southboro are: (seated) Beatric and Manuel, parents; and (standing, left to right) Nelia, Eduardo, John, Joe, Carlos and Paul. Missing from the photo is Mario who works in Milford.

Mini News is published weekly for the employees of Data General-Westboro. Material may be submitted for publication to Joan Simoneau, extension 4711, MS A235. Data General - An Equal Opportunity Employer.

Purchasing Reference Guide Available

"The Purchasing Professionals" PRIDE Circle at Westboro has compiled a guide for ordering goods and services for use by the entire company. "Purchasing: A User Reference Guide" may be obtained by stopping at Purchasing, MS A239.

Teambuilding Conference Attended by 60 Employees

Teambuilding was the theme of a recent conference conducted by Field Engineering Technical Services at Data General-Woodstock.

More than 60 employees attended a "Teambuilding" conference recently at Data General-Woodstock. Presented by Field Engineering Technical Services, the purpose of the workshop was to clarify the new "project team" approach to product maintenance documentation and prepare for the increased automation proposed for the organization.

Project teams were initiated to encourage each individual to get more involved in the total documentation effort and become aware how their efforts

directly impact others involved in producing the finished document.

The needs and the issues of the organization were determined and the workshop was structured to specifically address those needs. Follow-up to the conference will be accomplished by task forces within FE Technical Services.

The workshop was presented through the cooperative efforts of Corporate Management Organizational Development (MOD), Field Engineering MOD, Field Engineering Personnel and Technical Services.

“Company Profile” Publication Available

As a service to investors, financial analysts, customers, employees and others interested in the company, Data General has published a “Company Profile.” The new publication contains a summary of the company’s products, description of its markets, organizational data, a listing of facilities, developments from the most recent quarter, and detailed statistical data starting from FY '70, with quarterly data for the most recent three fiscal years.

The Company Profile is published quarterly and distributed via MAPS to Data General Sales representatives. Copies may be bulk ordered from Southboro Building 5 by ordering Form No. 012-2632.

Publications Network Meeting Draws 20

Twenty writers, editors and production specialists attended the first meeting of the newly-formed Publications Network, hosted by Educational Services. The meeting provided a forum for publications groups to meet, share information and open the lines of communication and professional exchange, says Carol Koundakjian, production manager within Educational Services.

“Why Technical Communicators Should Communicate,” was the topic of a talk given by Marguerite Krupp, section manager of Customer Documentation.

The versatility and special features of the new PENTA front-end typesetting system was explained by Billie Keese, system manager within Corporate Typesetting.

Anyone interested in learning more about the Publications Network, call Suellen Medd, extension 4063; Kathy Moran, extension 4095 or Judith Rubenstein, extension 4057 in Westboro.

Disposing of Microfiche

When discarding outdated microfiche, employees are urged to place the material in gray padlocked security bins which are stationed throughout Building 14A. Security asks that all follow this procedure to maintain Data General’s proprietary information program.

People

In NASD Marketing Programs...

Hans Wunderl joins NASD Marketing Programs as a program manager, reporting to Manager Tom Raleigh. Hans will be working with Area 2 to support Marketing Programs and Major Opportunities.

Hans has been with Data General Europe for more than six years and is a five-time member of the Million Dollar Club, both as a salesman and branch manager. Hans’ most recently was an account manager for Tetra Pak, one of Data General’s largest customers.

Hans holds a PhD in electrical engineering from the Technical University, Eindhoven, Holland.

Vince Scarlata joins NASD Marketing Programs as program manager for the Federal Area and Canada, reporting to Manager Tom Raleigh. Vince will work with both Federal Sales and the Federal Systems Division in developing Marketing programs and Major Opportunity support.

Vince has been with Data General for 11 years, most recently a Sales representative in Albany, New York, where he was a two-time member of the Million Dollar Club.

He holds an MBA from Clark University, an MA in Education from the University of Alabama and a BA in English from Spring Hill College.

In Manufacturing...

Bruce Dow and **John Sarmanian** have been named managers within Advanced Manufacturing Engineering and Technology (AME&T). Bruce is manager of Automated Manufacturing Process Control

Development, and John is manager of Advanced Manufacturing Controls and Systems Development. They report to Richard Sardell, senior department manager of Manufacturing Control Systems within AME&T.

Bruce is responsible for developing process software for the automated (Cornfield) Manufacturing facilities, and is also the interface between Manufacturing and Design Engineering Systems.

Prior to joining Data General in February 1984, Bruce was general manager of operations for Racal-Redac. Before that he was with Westinghouse for 24 years in various engineering and managerial positions, including manager of development services in the industry electronics division.

Bruce holds a degree in electrical engineering from the University of New Hampshire.

John joined Data General in June 1974 as a programmer and moved to Clayton in 1977 to establish the Management Information Systems (MIS) function, and served there as MIS manager until 1980 when he returned to Westboro. He held various management positions within Manufacturing MIS, MIS Architectural Planning and AME&T prior to his new appointment.

Manufacturing Training Courses For Employees

Manufacturing Information Resource Management Training (IRMT) is offering several office automation courses to employees. All courses will be held in the Learning Center, MS C232 at Westboro.

To obtain registration forms call extension 6202 or 5038 in Westboro or send a CEO Comprehensive Electronic Office message to Training:WEBO08. Supervisor's approval must accompany registration. All classes begin at 9 am.

Start Date	Course Title	Duration
July 10	CEO Mail, Calendar, Filing & Word Processing	2 Days
July 12	Present (Non-Technical)	1 Day
July 17	Trendview	1/2 Day

Activities

Jahja Ling Will Lead Pops Concert Saturday Night

*Jahja Ling,
Conductor*

A special guest conductor, Jahja Ling, will lead the Boston Pops Orchestra Saturday as Data General employees and guests gather at Symphony Hall in Boston. Jahja was recently appointed resident conductor of the Cleveland Orchestra where he has been performing as associate conductor. He is also a conducting fellow at the Tanglewood Music Center. A graduate of the Juilliard School of Music, he began playing piano at the age of four. Among his many accomplishments is winning first prize in the Jakarta Piano Competition when he was 17 years old.

During intermission, food and beverage service will be available on the floor on a cash basis.

Going By Bus

Buses for the Boston Pops outing will leave from Lobby 14B in Westboro, promptly at 6:30 p.m. Tickets are \$6.50 and will be sold on a first-come basis. Only exact cash will be accepted.

Directions

For those traveling from the WEST OF BOSTON: Take the Mass Pike to Prudential Center/Copley Square exit. Follow Prudential Center signs, turn left onto Huntington Avenue. If you are coming from SOUTH OF BOSTON, take the Southeast Expressway to Mass Avenue. Symphony Hall is located at the corner of Mass and Huntington Avenues.

For those traveling from the NORTH OF BOSTON, take Storrow Drive to the Fenway exit to Mass Avenue.

There's Plenty of Parking

There is no charge for metered parking spaces after 6 p.m., but be careful to park in legitimate spaces or you may be towed or ticketed. There are also a number of parking garages located near Symphony Hall: Westland Avenue Garage, 41 West-

land Avenue; Stanhope Garage, 3 St. Stephen Street; Uptown Garage, 10 Gainsboro Street; and Prudential Center Garage, Prudential Center. Rates range from \$6 to \$8 for concert parking.

Curtain Time

The doors to Symphony Hall will open at 7 p.m. and the orchestra will begin performing promptly at 8 p.m. Don't be late.

Coming Soon - Plan Now

If you haven't made your reservations for the Provincetown Outing on July 20 or the Beach Party at Steep Hill Beach, next to Crane's Beach in Ipswich, August 10, fill out a form and submit it to the Activities Committee, MS B111. There's lots of fun in store for you and your guests.

Mass Buying Power

Data General is a member of the Mass Buying Power program, which offers employees discounts on large consumer items, such as cars, refrigerators, stoves and other large appliances.

To apply for an employee discount, do the following:

- Call Mass Buying Power at 782-7131
- Identify yourself as a Data General employee
- Tell the agent about the product(s) you are interested in and the town or city in which you live and work
- They will send you the names of the dealer nearest you that handles the products you are interested in.

Mass Buying Power can be used as comparison shopping. You are not guaranteed the lowest price, but you are offered a consistently low price. It is up to you to be sure you find the best price.

Aerobics Second Session Will Begin July 8

The Data General Fitness Club has scheduled a second session of Dancin' Aerobics, beginning July 8. The program will be offered Monday and Wednesday from 5:30 to 6:30 p.m. in the main cafeteria at Westboro.

The ten-week class will be conducted by the YMCA of Greater Worcester. Included in the program is a cardiovascular risk factor analysis and fitness check which will take place at the first class. This will be followed by 19 sessions of aerobics which emphasize cardiovascular work, strength and flexibility. Each class will include a warm-up and cool down period, along with the aerobics portion.

Cost of the program is \$25 for ten weeks. Registration will take place June 24 and 26 in the Westboro cafeteria. Space is limited and registration will be on a first-come, first-serve basis.

Attention: All teams contact Steve Smith at extension 7288 in Southboro the following day with your scores. Steve is still awaiting scores from the first couple weeks. It is important that all are reported.

Softball Tournament

Anyone interested in participating in a softball marathon on June 22 and 23 should contact John Kreell at extension 6941 by June 19.

**Runners Club Reduces
Membership Fee To \$2**

Anyone interested in joining the Data General Runners Club (DGRC) can join for only \$2. The recent reduction in registration fee is designed to attract members. For more information write to DGRC, MS F036.

Runners Club To Compete

The Data General Runners Club (DGRC) is hitting the road again. Teams are being organized to compete in the Manufacturers Hanover Corporate Challenge which will be held Thursday, July 18, at 7 pm at the Boston Common. The event, which is open to Data General runners of all ages and abilities, is a 3.5 mile road race.

The larger the company representation the better. Last year more than 2000 runners from 120 firms participated. Thirty Data General employees participated and one co-ed team received awards for its third place finish.

If you register before June 25, registration is free.
