News For The Employees of Data General

April 22, 1983

A Piece Of Cake!

What better way to celebrate a birthday than with a piece of cake?

Thousands of Data General employees at Southboro, Westboro and Milford celebrated the company's fifteenth birthday a week ago by enjoying a piece of birthday cake. Free coffee was provided in the morning.

The birthday was also observed at field offices throughout the United States, as well as in Canada. Coffee, cake and even pizza at one location helped to make the day special.

Phone Authorization Codes To Change

New authorization codes will go into effect on the Data General telephone system Sunday, April 24. This will affect phone users in the Westboro, Southboro and Milford facilities, as well as all other Data General sites and field offices where employees are assigned a six-digit code to use when placing outside calls. If you have not received your new code, contact Marsha Dibbern (x6057) or Charlie Hurlburt (x6085) in Westboro for assistance.

Data General Now 339 In Fortune 500 Ranking

Data General has climbed 40 positions to number 339 on Fortune magazine's list of the 500 largest U.S. industrial companies. The ranking is based on Data General's fiscal 1982 revenues of \$805.9 million.

Data General has continued to climb up the Fortune 500 ladder, being ranked at 379 last year; 409 two years ago; and number 500 in 1979, when it first appeared on the prestigious list.

Sales dropped an average 5.7 percent for the Fortune 500 companies, the first decline since 1958. This means that if sales increased in 1982 - Data General's grew by 9 percent - a company could rise faster on the listing.

Other Massachusetts Fortune 500 firms are:

Raytheon	58
Digital Equipment	95
Gillette	172
Cabot	220
Polaroid	250
Norton	254
Wang	264
General Cinema	317
EG&G	341
Foxboro	402
M/A-Com	406
Dennison Manufacturing	416
Idle Wild Foods	421
Wyman-Gordon	463
Prime Computer	489

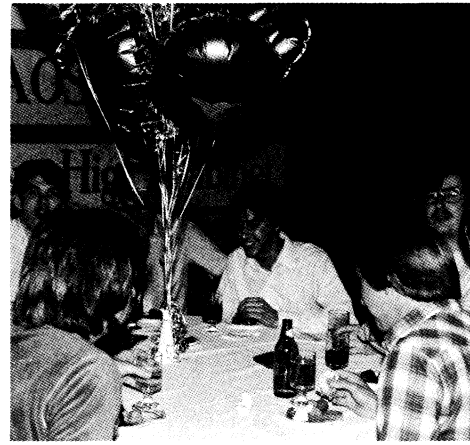

MHTC Questions Provisions Of Local Aid Package

"Buried beneath the good ideas and positive reforms that were revealed in the local aid package proposed by the Governor and the legislative leadership on Tuesday, April 12, lurks the repeal of one of the most important provisions of Proposition 2 1/2. That is, the right of almost one-fourth of the registered voters in the Commonwealth to determine the rate at which their property can be taxed."

That was the message this past week from the Massachusetts High Technology Council (MHTC) to members of the Massachusetts Legislature and the Governor as debate began on increased local aid to cities and towns. The provision of the proposal in question was a measure that would give the city council in the state's 11 largest communities the right to override Proposition 2 1/2 without going to the voters.

As a director of MHTC, Data General President Ed de Castro joined in the effort to convince legislators. In a telegram to representatives and senators from the Westboro-Southboro-Milford area, Ed said "This proposal in effect disenfranchises the tax-paying citizen without his consent. The voters at the local level should continue to have the right to determine if tax cuts they approved two years ago should be abridged or modified."

We Did It Right. Again.

Data General employees from Westboro, Southboro and Milford involved in developing the ECLIPSE MV/4000 computer were honored last week for their contributions.

More than 130 engineers, programmers, field engineers and Manufacturing personnel were cited during a party at the Driftwood Lounge in Shrewsbury. Their efforts helped to bring the 32-bit computer and associated software products from the design board to the customer site.

Introduced last November, the ECLIPSE MV/4000 system is the smallest member of the ECLIPSE

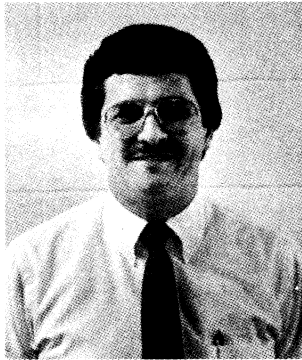

MV/Family of computers. It is geared for use in office and industrial automation markets. Demand for computers in both areas will increase substantially during the 1980s. The ECLIPSE MV/4000 computer also is the heart of Data General's new GW/4000 Expert Workstation.

During the party, the contributors were awarded plaques by Senior Vice President for the Business Group Bob Miller. The next day, members of the ECLIPSE MV/4000 computer team proudly displayed t-shirts proclaiming "We did it right. Again."

Westboro

People

Jack Smith, manager of Corporate Sales Administration for the past three years, will assume a management executive rotation position as executive consultant to Manufacturing Management and Organizational Development (MOD) effective May 9.

Jack, who now reports to Jim Edelmenn, director of Customer Order Administration, will report to Bob Kelley, manager of Manufacturing MOD. Jack will be involved in all Manufacturing MOD activities and specific special projects such as career development and management training.

"This assignment will contribute to Jack's own personal career development as well as the career development programs within Manufacturing," says Bob.

Jack was previously a regional customer service manager at Memorex. He has a BS in psychology from the University of Oklahoma.

Corporate Sales Administration functions will report to Jim Edelmenn until the position is filled.

Directors And Managers Work At PRIDE

Manufacturing directors and managers from Westboro recently attended a series of workshops to brush up on the PRIDE Circle program, its techniques and its results.

"The workshops gave people the opportunity to experience what the PRIDE Circle process is all about by giving them a chance to interact as a mini PRIDE Circle," says Facilitator Linda Gordon.

The directors and managers used PRIDE Circle techniques, such as brainstorming, pareto analysis and cause and effect analysis, that Circle members learn. Also, they were given a condensed version of the group dynamics training that all Circle leaders receive.

"The workshops were held to make sure directors and managers understand the PRIDE Circle process so that they can be involved in the PRIDE Circle program. They were asked to share their goals with Circles, which cannot survive without their involvement and support," says Linda.

The more than 80 people attending the workshops will now be able to better define their roles in the PRIDE Circle program. This is part of the process of building up understanding among Circle members, managers and directors.

Bill Kelleher, director of Corporate Quality Assurance; Bruce Neff, director of Materials and Manufacturing Control; and Purchasing Director Chuck Enright (left to right) work on cause and effect analysis techniques.

A Clean Sweep

On Saturday, April 23 the West parking lot and the Visitor parking lots will be closed for cleaning. Please refrain from parking in either area.

On Sunday, April 24, the North parking lots will be cleaned. All cars must be removed from the parking areas behind Buildings 14A and 14B no later than 8 a.m. Sunday morning. During that time, Lobby 14B will be closed and employees may enter the building through Lobby 14A.

Southboro

People

Pat Fitzgerald

Pat Fitzgerald has joined Southboro Personnel as a senior employee relations representative. She is located in Building 5 and reports to Don Simpson, Southboro Employee Relations manager.

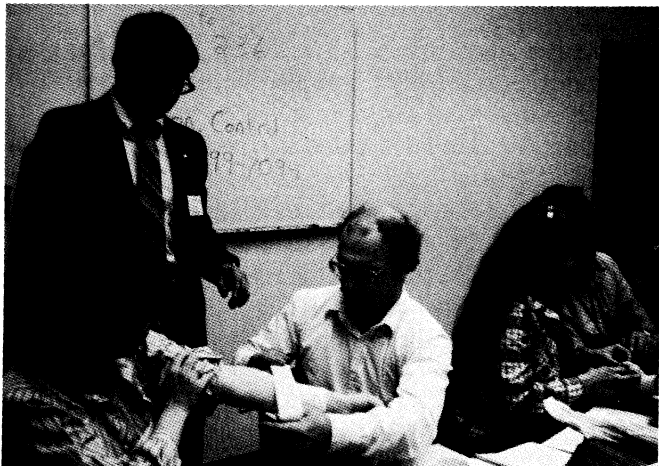

Pat brings several years of Data General experience with her to this position. Most recently, she

was a senior personnel representative based in the Minneapolis Field Engineering office. Pat holds a bachelor's degree in business from Iowa State University and has completed numerous courses in personnel management.

Pat has already become involved in several special projects including the placement of PCB Fabrication employees into new positions and career paths within Data General. She states, "I have begun meeting with people in Building 5 and I really appreciate the cooperation and support I have received while getting established in my new office."

Anyone who is interested in setting up a meeting with Pat should have their supervisor arrange an appointment with her. She adds, "There are a lot of interesting projects planned for the coming months and I am looking forward to working with everyone."

Southboro Employees Receive Red Cross Certification

During The Red Cross First Aid course held in Southboro, employees practice proper methods of bandaging.

Twelve Southboro employees recently completed a First Aid course which was coordinated by Southboro's Medical department Supervisor Theresa Reale. The course was offered in conjunction with the Central New England Chapter of the American Red Cross and represents one of several programs the Medical department is providing for employees.

During two, four-hour sessions, attendees learned about a variety of first aid techniques including how to handle sudden illness, broken bones and emergency rescue. Red Cross Representative Mike Cordelli presented filmed demonstrations and led practice sessions allowing employees to develop confidence in their new skills.

Theresa states, "I am very pleased that we had such a positive response to this course. This program is voluntary and it provides very good first aid training that can be used at home and on the job."

Each employee who completed the course received three-year Red Cross certification. They are:

Maria Cordeiro	Frank Kelley
James DePalo	Young Kim
Livingston Dussey	Noe LeBeau
John Gierczak	Sam Parrish
Marilyn Gray	Alan Plouffe
Donald Guertin	John Russell

Leader Training Completed

Southboro employees who recently completed PRIDE Circle leader training are: front row (from left to right) Theresa Palma, Mike Grniet, Nancy Forrister, Lorretta Stuczynski, Mary Lesperance and back row (left to right) Mike Wiggins, Bill Hickey, Kevin Lloyd, Bob Shea, John Gigarjian and Ed Stukowski. Missing from photo: Peter DeCarolis.

PRIDE Circle leader training was held again in Southboro representing the fifth group of employees to complete the training program. Led by Facilitator Joe Crisefulli, this three-day course provided training in the specialized skills needed to become a Circle leader. Joe states, "PRIDE Circle leader training has many benefits. Employees learn what it means to be a leader. They also develop very good communication and interpersonal skills."

A special feature of this session was a question and answer period led by Diane Conroy, a PRIDE Circle leader in Software Distribution. Diane was able to share her experiences and feelings with the course attendees. She explained that even though being a leader is a very important role, it is also important to remain a member of the group. She states, "I believe being a leader is like being a guide for the Circle. The best approach is to keep the Circle working as a team, to select proper issues to work on and take the appropriate steps to resolve them."

During the last year, many Circles have been resolving work-related issues successfully while adding to the productivity in their work areas.

The newly-trained leaders will have a chance to utilize their education by forming new Circles in their departments or assuming the leader role in a Circle

already meeting regularly. Many employees elect to serve as a PRIDE Circle leader for one year, giving them the opportunity to use their new skills.

Employee Recognized For Cost Reduction

Systems Integration Operation's (SIO) Cost Reduction program is continually reviewing and implementing suggestions received from motivated Southboro employees. This program recognizes employees who originate especially cost-effective ideas by awarding them with Cost Reduction Certificates.

Jim Brosnan received such an award last week for a suggestion he submitted pertaining to corrugated box material. These materials were arriving from the vendors insufficiently strapped on pallets which were too small to accommodate them. This shipping procedure left purchased material vulnerable to damage. With the assistance of Southboro's Purchasing department, this situation has been corrected. The vendors now follow strictly enforced specifications when shipping corrugated materials to Southboro.

At the time Jim submitted his suggestion, he was a packer in Final Prep and Package. He is currently employed in Southboro's Low Volume Operation.

Dave MacConnell, Low Volume Operations manager states, "Jim has made a significant contribution to cost savings for Data General. I am sure he will continue to be innovative in his new job and help to motivate employees in Low Volume to participate in the Cost Reduction Program."

Assembler Jim Brosnan (center) is congratulated by Operations Manager Dave MacConnell and Cost Reduction Program Coordinator Joyce Barrus for winning a Cost Reduction Award.

Milford

People

Roy Potvin has been named Production Control manager in Field Engineering Logistics, reporting to Logistics Director Alberto Pardo.

Roy joins Field Engineering after five years in Manufacturing at Southboro. His most recent assignment was Inventory Planning and Control manager. Previously, he was New Product/Assembly Planning Materials manager, New Products Materials manager and Production Control supervisor.

Roy has a BA from Worcester State College and an MBA from Worcester Polytechnic Institute.

Len Waters joins Field Engineering Technical Publications as an associate technical writer responsible for writing hardware maintenance documentation. He reports to Supervisor Bruce Pardee.

Lenny comes to Data General from Raytheon Service Company where he was a hardware technical writer. Prior to that, Lenny was a technical editor and a computer marketing representative.

Lenny holds a BA in economics from Framingham State College and an MBA from Suffolk University. He is currently pursuing a master's degree in information systems at Northeastern University.

Next CPR Class Begins May 11

The next class to learn cardiopulmonary resuscitation (CPR) techniques will be held May 11, 16 and 18 at Milford. The nine-hour course is taught by members of the Franklin Lifesavers.

Data General-Milford Nurse Ann Marie Robinson says 14 people completed March's CPR course, bringing the total certified in CPR to more than 35.

Next month's class will be the last held until after the summer. Anyone interested in signing up should contact Ann Marie at extension 2021. She will be contacting people who have already expressed an interest in learning CPR.

"For Your Health"

The second "For Your Health" health awareness talk by Dr. Charles Lutton of Milford will be held in mid-May at Milford. The topic will be "Cease Smoking."

The first talk, held last month, was about "Dieting and Physical Fitness." The presentation lasted about an hour, with Dr. Lutton giving a brief talk followed by a question-and-answer session.

Anyone interested in more information about the health awareness talks, or wanting to sign up for the next one, should contact Data General-Milford Nurse Ann Marie Robinson at extension 2021.

Benefits

Check Your Pay Stub

Employees are reminded to check their pay stubs to make sure that the necessary deductions are being withheld for both the medical and savings plans. If questions arise, contact your Benefits Administrator immediately.

HMOs And Medical Emergencies

Clear thinking is important in a medical emergency. Too many people believe severe accidents will never happen to them. But, what if they do? Knowing the necessary procedures to follow for obtaining treatment will save time during critical moments.

If you are enrolled in an HMO, read the section of your Member Handbook concerning medical emergencies. HMOs require you to follow certain procedures to receive coverage of a medical emergency. If these procedures are not followed, you may have to pay any expenses you incur as a result of medical treatment obtained.

1. How does your HMO define a "medical emergency"?
2. Can you go immediately to a hospital emergency room or must you call your doctor first?
3. Must you use a specific hospital?
4. What number do you call during normal business hours? After normal business hours?
5. What do you do in an emergency situation if you are outside the HMO service area?
6. Are there any situations that may not be covered if you are outside the HMO service area?

In most instances your HMO handbook provides answers to each of those questions plus additional information. If you need further assistance in understanding your HMO benefits and emergency procedures, talk to your primary care physician or call the HMO Membership Service department.

Activities

Backcourt News

Season Ends; SID Takes First Place
SID of Southboro is this year's Data General Basket-

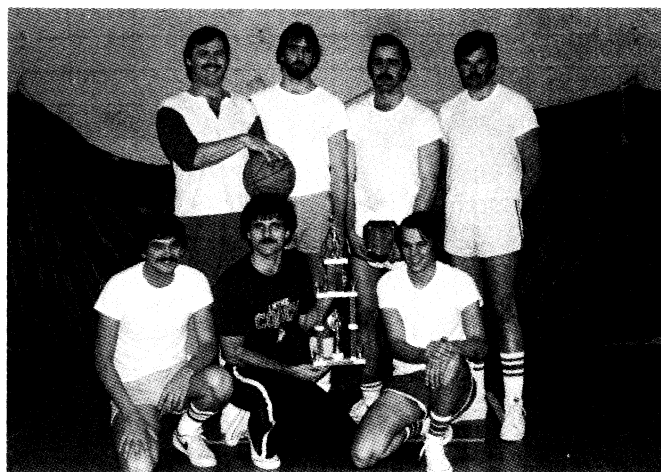

ball League champion after beating the second place Hornets in the league's championship game. In the consolation game for third place, the Bullets took the trophy by whipping the Lakers.

Individuals Recognized For Outstanding Scoring

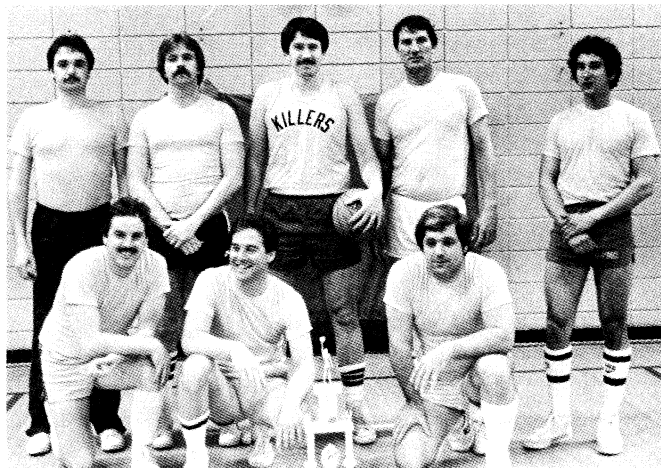

- Paul Abasciano of SID with 22 points in the quarter-finals.
- Troy Taylor of the Hornets with 22 points scored during the semi-finals.
- Jeff Smith of Milford holds the league all-time scoring high of 31 points in one game.

Team Highlights

- Bullets and Hornets waged the first overtime battle of the year during the quarter-finals.
- Lakers led the semi-final game almost to the end, only to have SID make a comeback that turned the game around. Some say that this was the upset of the '83 league season.

SID captures first place. Team members are:(top, left to right) Mike Boucher, Greg Russell, Ron Jones and Dave Knipes; (bottom, left to right) John Zalegowski, Dave Demattia and Paul Abasciano. Missing: Craig Graham, Pete Moynihan and Bill McGrath.

Members of the second place Hornets team are: (top, left to right) Dave Alexander, Dan Beksha, Frank Cortesa, Troy Taylor and Rich Lombard; (bottom, left to right) Bob Kenney, Gary Innamorati and George Rideout. Missing: Tom Welton, Steve Weir, Paul Marcucci and Joe Chiapponi.

Road Race Entry Procedures Announced

Entry into the 1983 Spring Road Race, to be held at Westboro on Friday, May 13, will be different from entry into past races. Road Race Committee chairman John Foley says the pre-race registration is necessary to avoid confusion at the start of the event.

"We'll have to receive entries by Friday, May 6, in order to guarantee each entrant a Dasher T-shirt," says John. He adds that in ordering shirts, competitors should specify their exact size since the material will not shrink.

The Road Race Committee will mail race numbers on receipt of the entry forms.

John adds, "Everyone should make sure that the entry forms are filled out completely. We may have to return or discard entries that don't have enough information."

Signature: _____

Return race form to ROAD RACE, MS C223 in Westboro one week prior to the race date. This race is sponsored by the Data General Activities Committee solely for its employees.

(Incomplete Forms Will Be Rejected.)

The race program this year includes a 13.1-mile bicycle race, foot races of 10 km (6.2 miles) and three miles, and a biathlon consisting of a 13.1-mile cycling lap followed by a three-mile running lap. The first event will start at 5:30 p.m.

Opera New England Returns to Woodstock

The Data General Cultural Center is offering tickets to Opera New England's presentation of Mozart's Comic opera *The Abduction from the Seraglio*. Tickets for the Friday, May 6 (8 p.m.) presentation are \$11 per person. For reservations contact Rita Fristoe, extension 4712 in Westboro.

Discounts

Passes for the Museum of Science and the Prudential Skywalk are available for Data General employees. Send requests to Francine DiFilippo, MS D127 in Westboro. Passes to the Children's Museum in Boston are no longer available.

Reach For Quality

More than 1100 people in Westboro, Southboro and Milford are reaching for a message each day. Their vending machine coffee cups say it: "Quality First."

The message is the Purchasing department's motto. Director Chuck Enright likes to remind people of it constantly, through note pads, rulers, pocket pen and pencil holders and, most recently, the coffee cups.

"We're trying to do everything we can to keep our message in front of all employees. The coffee cups are just another reminder to people that 'Quality First' is what Data General is all about," says Chuck.

With the assistance of Corporate Marketing Communications and Servomation, the food service company serving several New England facilities, the cups will replace the standard vending machine cup for the next several months. By the end of the month, people at Portsmouth and Westbrook will also be reaching for the "Quality First" message.
