Mini News
News For The Employees of Data General

March 15, 1985

Shanzer Resigns Oppenheimer Acting GM

Herb Shanzer has resigned as vice president and general manger of the Desktop Division to pursue other interests.

Allan Oppenheimer has been appointed acting general manager of the division. Allan is director of Dealer Programs in the Desktop Division.

Joining Data General in July of last year, Allan has extensive marketing management experience, �örticularly in the personal computer and workstation markets. Among his past positions, he has five years of experience with Apple computer and, prior to joining Data General, he worked for Apollo Computer.

Ben Dalton Named General Manager

Ben Dalton has been appointed general manager for Data General's Singapore plants, reporting to International Manufacturing Operations Vice President Howard Haythornthwaite.

Effective April 1, Ben will be responsible for the printed circuit board fabrication plant and the systems/distribution center. He will provide the necessary senior management focus during the start-up phases of these new facilities.

Singapore Plant Operations Managers Larry Billings and David Gates will report directly to Ben, in addition to the supporting staff functions of Personnel, MIS and Industrial Engineering.

Ben has been with Data General since 1976. He was most recently general manager for Data General's Southern Manufacturing Operations. As a result of Ben's assignment, Rod Gilvey, Ralph Hudson and Don Wilde, plant managers at Clayton, Apex and Austin, will report to Jim Williamson, vice president of U.S. Manufacturing Operations.

Schepers Named Director For Worldwide Technical Programs

Heinz Schepers has been named director of Worldwide Technical Programs. In this new position, he reports to Fred Cochrane, vice president of Field Engineering Engineering Services. He will be responsible for the implementation and integration of Data General's field service worldwide technical programs.

Heinz has been with Data General-Europe for more than six years. He most recently was manager of the European Product Support group, part of the European Customer Service and Support Centre in Schwalbach, West Germany. He was responsible for providing technical support, project support and product management for Data General's subsidiaries and distributors in Europe, the Middle East and Africa.

Heinz has held several engineering and management positions with the German air force and NATO. He graduated from the Electronics Academy (of the German air force) in Lechfeld, West Germany.

## Record Number Honored At 14th Million Dollar Club

Nearly 350 Sales representatives and managers from Data General offices worldwide were honored this week in Hawaii at the Million Dollar Club.

The number of Sales representative invited to the conference was the most ever to be selected to the Million Dollar Club since it was founded in 1971.This year's club membership totals more than Data General's entire Sales force of eight years ago.

During the four-day conference, attendees participated in business workshops and health-related seminars that offered tips for physical fitness.

Graphics Open House

Employees are invited to attend an open house on presentation graphics sponsored by Manufacturing Information Resource Management. Tips on using graphics as presentation tools will be offered, as well as a demonstration of the two pen plotter than can be used with Trendview, Data General's graphics package. Three informal, one-hour sessions will be held on Thursday, March 21 at 2 p.m. and Tuesday, March 26 at 10 a.m. and 2 p.m. in the Manufacturing Information Resource Center located outside of B223.

Technical Meeting Series Continues At Woodstock

Field Engineering is sponsoring a one-day seminar on artificial intelligence (AI) and expert systems to be held Monday, April 8 at Data General-Woodstock. The seminar is geared toward employees involved with design and development.

The seminar will be led by Dr. Henry Eric Firdman, of Henry Firdman and Associates. Eric holds a PhD from the Center for Microelectronic Design in Moscow and has long been involved in developing and implementing artificial intelligence-based systems.

Topics to be covered include:

• Definition and characteristics of artificial intelligence.
• AI technology and tools
• Case study of expert systems
• A look at the major players in the market
• Strategic planning of AI ventures

Sign-ups will be accepted until Wednesday, April 3. Manager's approval is necessary and $75 per employee will be charged back to the department. For more information and reservations contact Robert Dourandish at Westboro extension 3840 or via CEO at DOURANDI R:FE1K28.

Westboro

People

In ISD...

Kathy Sowards joins System Supplier Marketing Communications as a public relations specialist, reporting to Manager Bob Palmer.

Kathy was most recently editor of the System Supplier newsletter, Straight Talk. Prior to Data General, she was with Houston Instrument. Kathy holds a bachelor's degree in journalism from the University of Texas at Austin.

In TPD...

Phil Nelson joins Industrial Automation Marketing as a senior marketing specialist, reporting to Bob Andrews, manager of Industrial Automation programs.

Phil will manage TPD's Independent Hardware Vendor program. The program offers users a wide range of compatible engineering tools, capitalizing on the availability of products from leading third-party hardware developers.

Phil was most recently a systems engineer in Providence, Rhode Island. Before joining Data General, he was manager of computer applications at Corner and Lada Corporation. He has BS in computer science and applied mathematics from the University of Rhode Island.

In Employee Communications...

Audrea Cohen joins Employee Communications as a communications writer, reporting to Steve .kitas, manager of Employee Communications.

She is responsible for producing audio visual presentations, arranging special events and supporting the development groups with communication programs.

She has been with Data General for more than three years and most recently was with Corporate Manufacturing Training. Audrea earned an MA from the University of Connecticut and a BS from Southern Connecticut State University.

In Human Resources...

Earl Rezendes joins Data General as a senior Personnel representative in Corporate Manufacturing Human Resources.

He supports the human resource needs of Corporate Quality Assurance, Advanced Manufacturing Engineering and Technology, Manufacturing Planning, Distribution, Manufacturing Systems Planning and Construction Services.

Earl comes to Data General from M/A Com, Inc. of Burlington, where he was a senior Personnel representative. He holds a BS in industrial relations from Southeastern Mass. University and an MBA from Bryant College.

Milestones

Congratulations to the following Data General employees celebrating five, 10 and 15 years of service during the month of March:

New ECLIPSE MV/Family Hardware At Education Center

The Hardware Education Center, located at 2400 Computer Drive in Westboro, recently expanded its lab facilities with four new ECLIPSE MV/Family systems. The new equipment, including an ECLIPSE MV/8000 II processor, signals an upgrading of Data General hardware maintenance training. With the new systems, Educational Services now provides a broader curriculum for Data General customers and employees who maintain their own computer hardware.

Courses Available to Employees

Hardware courses featuring preparatory, board-level, component-level, peripheral communications and advanced service technology maintenance are available to employees. The following is a list of hardware courses scheduled through June at the Hardware Education Center. For detailed course descriptions or for a complete listing of Educational Services' course offerings, consult the current Customer Education Schedule (012-2099-05).

To enroll, call Central Registration and Information in Westboro at extension 4079 or 4096. Supervisor's approval is required prior to registration.

Start Date	Course #	Course Title
4/1	H100	Data General Computer Architecture
	H203	Disc 10 MB (6045 Series)
	H305	NOVA 3 Component Level
4/8	H101	Diagnostic Operating System User
	H322	DESKTOP GENERATION Component Level
	H401	Advanced Maintenance Technology Using RDOS
4/15	H100	Data General Computer Architecture
	H128	ECLIPSE MV/8000 Field Maintenance
4/22	H104	ECLIPSE S130, S200, S230 Field Maintenance
	H122	DESKTOP GENERATION Field Maintenance
4/29	H204	6060/6061/6067/6122 Disc Field Maintenance
	H288	Data Communications Maintenance
	H304	ECLIPSE S130, S200, S230 Component Level
	H401	Advanced Maintenance Technology Using RDOS

Start Date	Course #	Course Title
5/6	H100	Data General Computer Architecture
	H168	ECLIPSE MV/10000 Field Maintenance
	H236	6236/6237 Disc Field Maintenance
5/13	H101	Diagnostic Operating System User
	H105	NOVA 3 Field Maintenance
5/20	H305	NOVA 3 Component Level
	H402	Advanced Maintenance Technology Using AOS & AOS/VS
6/3	H100	Data General Computer Architecture
	H121	ECLIPSE S140/NOVA 4 S/X Field Maintenance
	H203	Disc 10 MB (6045 Series)
6/10	H101	Diagnostic Operating System User
	H104	ECLIPSE S130, S200, S230 Field Maintenance
	H122	DESKTOP GENERATION Field Maintenance
	H148	ECLIPSE MV/4000 Field Maintenance
	H321	ECLIPSE S140/NOVA 4 S/X Component Level

	H180	ECLIPSE S/280 Field Maintenance
	H304	ECLIPSE S130, S200, S230 Component Level
6/24	H149	ECLIPSE MV/4000 SC Field Maintenance
	H288	Data Communications Maintenance

Benefits

Benefits Directory

If you have a question or need assistance or information concerning one of the Data General Benefit Plans, call the applicable number below. Save this listing and keep it handy for easy reference.
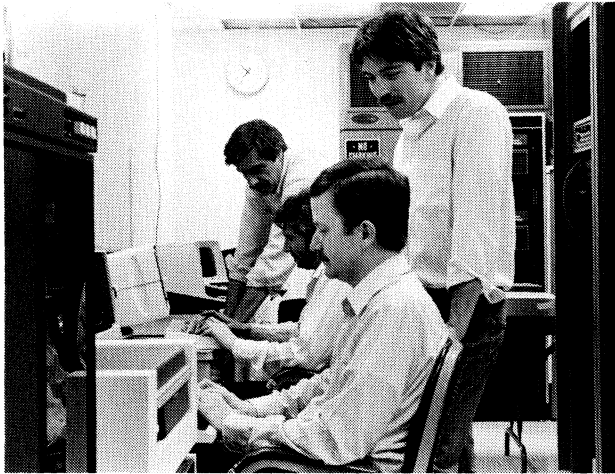

For questions concerning employee or dependent life insurance, accident and sickness benefits, Data General Medical Plan (Prudential), or long-term disability benefits, contact the Benefits administrator assigned to the section of the alphabet in which the first letter of your last name falls:

Alpha. Sec.	Benefits Administrator	Webo Ext.
A - D	Lyn Fleming	4576
E - K	Ellen Stefanik	4570
L - Q	Kate Oftring	4559
R - Z	Lisa Jablonski	4549

• Second Surgical Opinion - Prudential Claims Office 1-617-687-0592 (call collect).

• Health Maintenance Organization (HMO) Plans - Eligibility, enrollment or other changes in coverage information may be obtained from your Benefits administrator. Questions related to benefits, services, staff or facilities should be directed to the local HMO Membership Services department.

• Dental Plan - Local Travelers Claim Office. Massachusetts residents call 1-800-243-1718.

• Pension Plan - Westboro extension 4562.

• Savings and Investment Program - For specific investment questions related to the Balanced or Equity Funds, call Putnam Management at 1-800-343-0909. For all other information, call Westboro extension 4524.

• Stock Purchase Plan - Westboro extension 4570.

• Credit Union (Union Warren Savings) - Westboro extension 4550.

• Auto/Homeowner's/Renter's Insurance - Marsh & McLennan, Inc. call Westboro extensions 4601, 4603, and 4607.

• Scholarship Program - Westboro extension 4559.

World-Wide Network Links Data General

The Network Control Center at Westboro is the focal point of the world-wide private network.

As a world-wide company, some Data General sites are oceans and continents apart from each other. But that world is becoming smaller, thanks to the system being installed by the Corporate Telecommunications department.

The Westboro-based group is implementing a private network to improve the flow of data among sites around the globe and to curb escalating comunications transmission costs.

When the network is completed later this year, thousands of employees at more than 100 sites will be able to send computer-based files and electronic messages, such as CEO (Comprehensive Electronic Office) documents and messages, to one another from terminals at their desks.

A large part of Data General's success relies on the rapid exchange of vital day-to-day information. Currently, this computer-based information is transmitted by a wide range of services including: leased AT&T telephone lines; message networks for TWXs; public packet networks, etc. Yet, while costs to use these services are rising continually, they are becoming overburdened with users, thereby slowing the flow of communications.

The private network means communications lines will be dedicated to Data General use. "In many cases," says Telecommunications Manager Dean Williams, "the network will eliminate the need for Data General offices to use express mail services, commercial couriers and the postal system to exchange internal information and files."

In all, nine Data General sites designated as "nodes," form the backbone of the U.S. network: Westboro; Milford; Research Triangle Park; Norcross, Georgia; Schaumberg, Illinois; Fountain, Colorado; Austin; Manhattan Beach; and Sunnyvale. The initial phase of the private network, which includes the nine nodes, is scheduled to be completed in April. The sites that are connected to each node (tributaries) should be operational shortly after the nodes are functioning. This will depend on the availability of facilities and any office relocations.

At each of these sites will be switching equipment to route electronic information emanating from offices in that region to their proper destinations. All communications between offices will pass through a node on its journey.

For instance, when a CEO message is sent from an employee in San Francisco to Cambridge it first travels to the node in Sunnyvale, which handles all communications in northern California and the Pacific northwest. From Sunnyvale, the information is directed to the node in Westboro which then sends it on its way to its final stop, a terminal in Cambridge.

"The objective of this effort," notes Dean, "is to create a world-wide, cost-effective network." Currently, selected European and Asian offices can access the network via dedicated private lines. Other offices will use the public data network (PDN), until they can be connected.

Paris, Hounslow, England and Schwalbach, West Germany already are connected to Westboro via the network. Currently, messages can be routed to Westboro from Hong Kong, Singapore, Manila and Bangkok. Nippon•Data General's Manufacturing site in Gyoda soon will be connected to the Sunnyvale node. Connections to Melbourne and Venezuela are planned for the near future.

"The network is dynamic," explains Dean. "As more applications and needs are identified, sites will be added to it."

A Team Effort

The installation of the network marks a real Data General team effort. Employees from Manufacturing, Software Development, Field Engineering, North American Sales and Corporate Software Support (CSS) were involved in making sure the network would live up to the use the company would put on it.

"The contributions of many Data General groups, both domestic and international, has made this program a reality," says Dean.
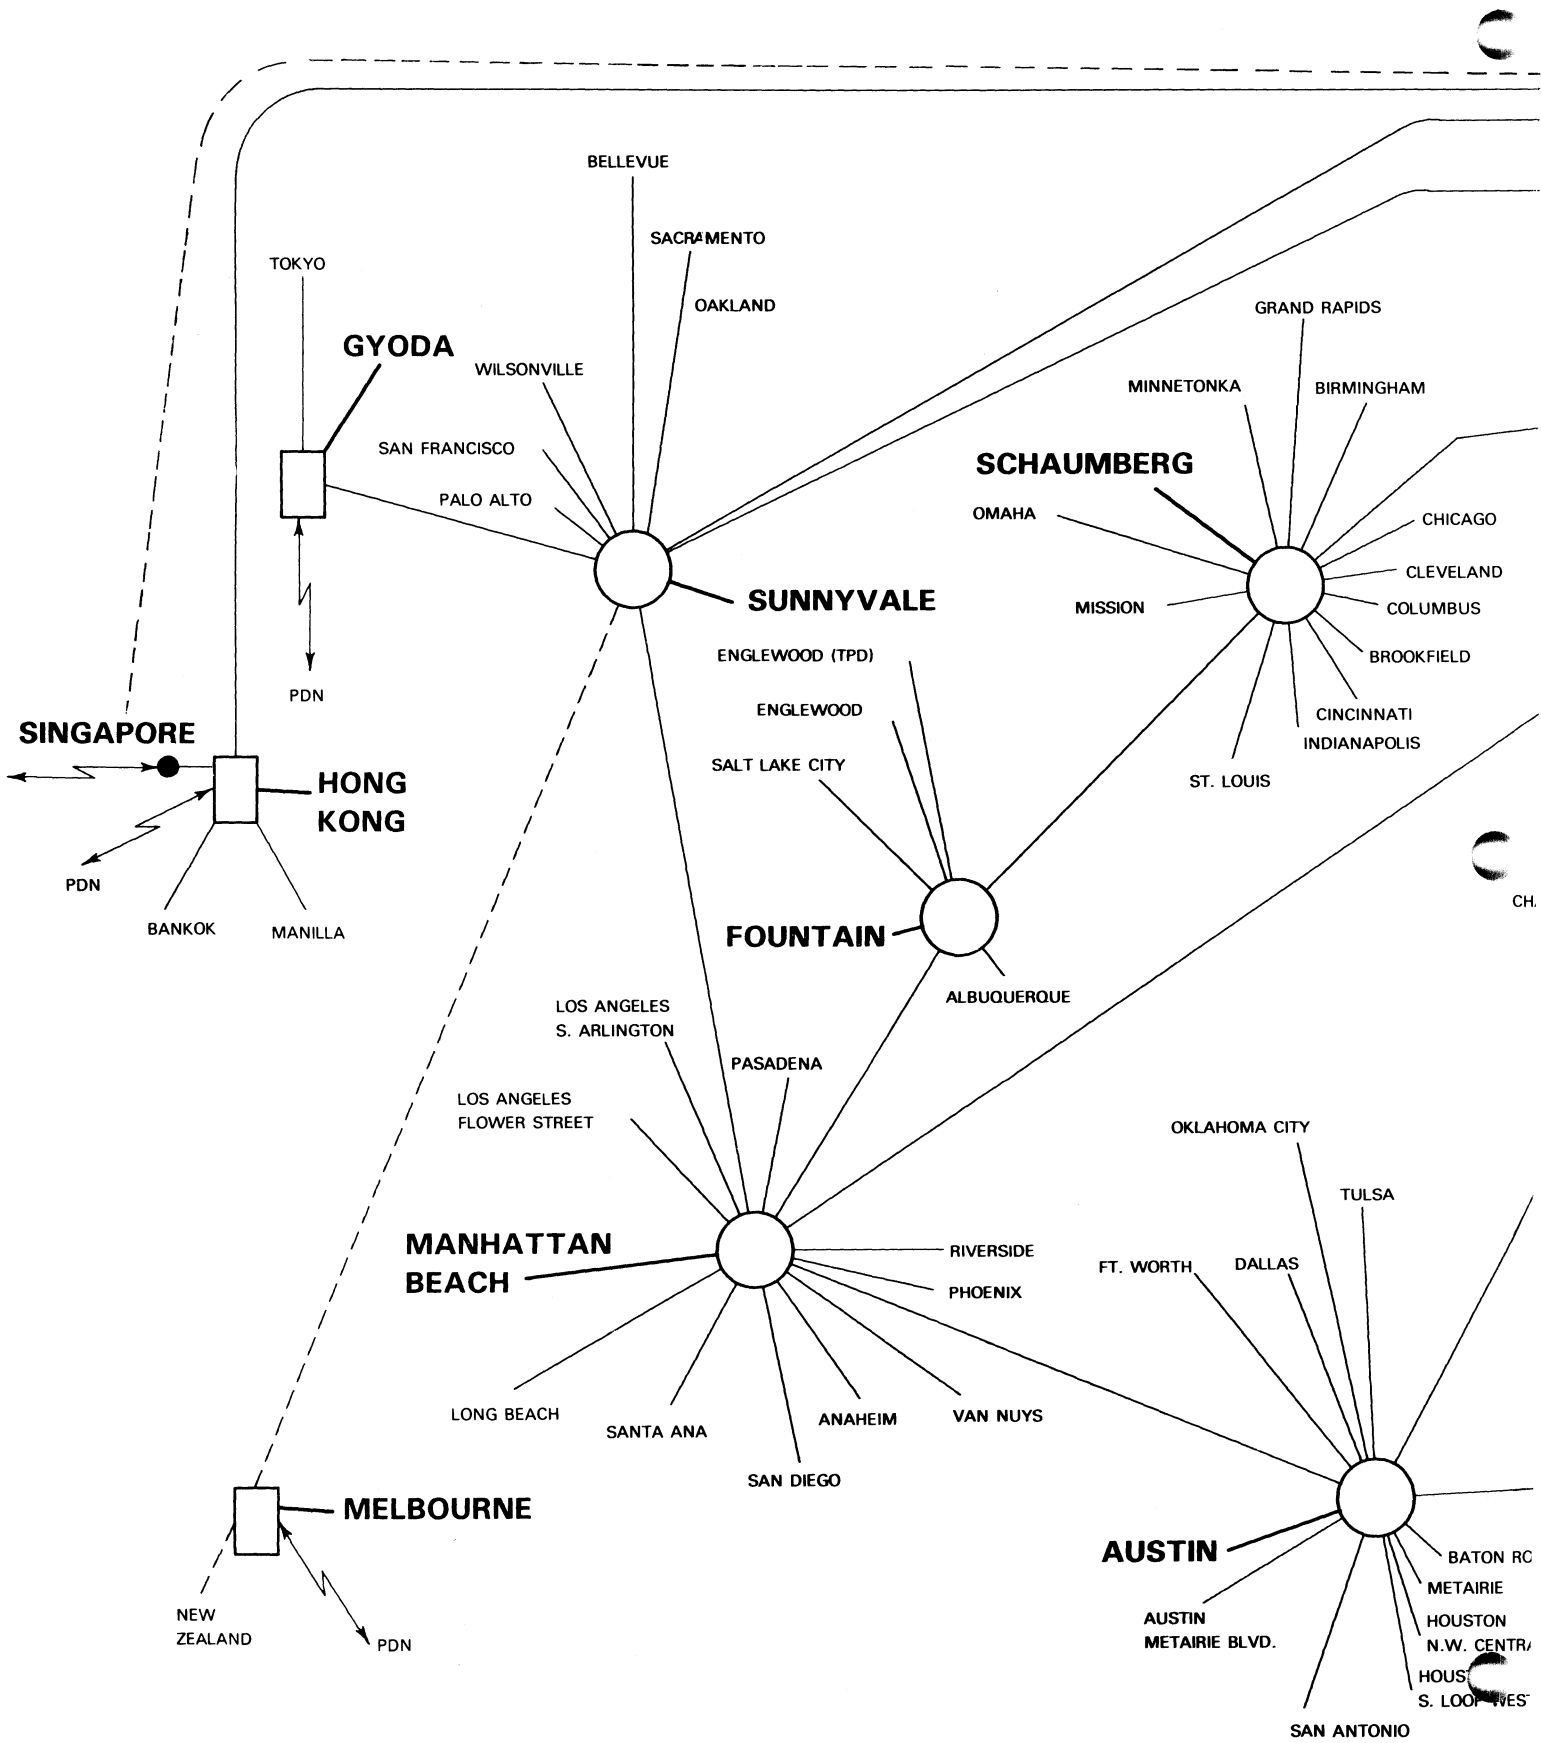

The Network Control Center (NCC) in Westboro is the focal point of the world-wide private network. According to Dean, the center is a "comprehensive management tool which monitors network performance, collects accounting and statistical information, and provides for extensive network diagnostics. The center monitors the network and serves as a troubleshooter."
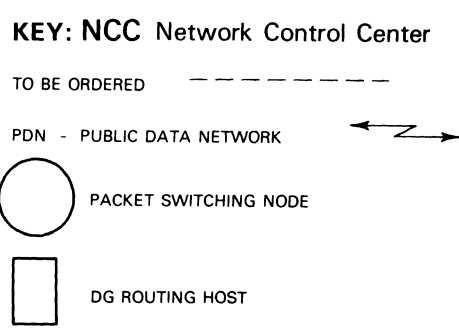

Implementing the network requires extensive cooperation between the field offices and the center, Dean remarks. "Each site has designated a project coordinator to work with the NCC on the installation and on-going network issues."

The NCC can be contacted in Westboro at extension 3891; or by CEO, NCC:atlas.

See the next pages for a bird's-eye view of Data General's Private Data Network.

PDN - PUBLIC DATA NETWORK

○ PACKET SWITCHING NODE

▢ DG ROUTING HOST

The backbone of the U.S. network is comprised of nine Data General sites: Westboro; Milford; Research Triangle Park; Norcross, Georgia; Schaumberg, Illinois; Fountain, Colorado; Austin; Manhattan Beach; and Sunnyvale. The sites connected to each "node" will become operational after the nodes are functioning. The initial phase is scheduled to be completed in April.

Activities

And The Winner Is...

Congratulations goes to Mark Cerny of Data General-Milford for designing the winning entry in the Data General Activities Committee Logo Contest. For his creative efforts, Mark will receive a $50 gift certificate to the restaurant of his choice. See next week's *Mini News* for a look at the new Activities Committee logo!

Softball League Sign-Up
For Individual Players

There is still time for individual players to sign-up for this year's Data General Softball League. Interested employees are asked to contact League Commissioner Dennis Bishop at extension 6254. Your name will be placed in a players' pool or selectively placed on a team that fits your playing ability.

Circus Comes To
The Centrum

The Ringling Bros. Barnum and Bailey Circus is coming to the Worcester Centrum next month. The Data General Activities Committee has purchased discount tickets to the Saturday, April 27 performance at 11 a.m. Tickets are $7.50 each. Send requests to CIRCUS MS D232, include a stamped, self-addressed envelope. Make checks payable to the Data General Activities Committee.

Visit The Museum Of Science

Employees can obtain discount coupons for admission to the Museum of Science in Boston by sending a self-addressed, stamped envelope to MUSEUM OF SCIENCE, MS B111. By using the coupon, the bearer will only be charged a $1 admission fee at the door. Please indicate the number of passes needed (limit is four per employee).

Join The Data General
Runners' Club

The Data General Runners' Club is off and running! The club is bringing together runners of all abilities to exchange information on training and racing, and organize corporate teams to compete in local races.

Whether you are an official veteran of Boston Marathons, a local 10K racer, or a 10-minute per mile jogger, the Runners' Club is seeking your involvement. The club's first meeting will be Wednesday, March 27 at 5 p.m. in the Cafeteria. If you would like advance information about the club, see the Activities bulletin boards or write Running Club, F036.

Attention Skiers

Lift tickets are still available for the following areas: Waterville Valley, $14; Mt. Snow, $16; Cannon, $13; Wilderness, $9; Loon Mountain, $14; Wachusett Mountain, $8 for day or evening skiing and $15 for unlimited all-day skiing. Call John Watkins at extension 5099 after 4 p.m. to reserve tickets. Please make all checks payable to Data General Ski Club.

Compared to Data General's desktop, the IBM PC-AT seems a little empty.

If you need a networked multi-user micro system today, there's no comparison.

Data General's DESKTOP GENERATION™ has delivered for over a year the multi-user applications that the IBM PC-AT only promises.

What can Data General deliver today? Distributed data processing. Connectability to other vendors' equipment, including IBM mainframes. Fully integrated office automation, using our CEO® systems.

Can you get all this from the IBM PC-AT?

It's anyone's guess when the IBM PC-AT will have all the capabilities Data General's DESKTOP GENERATION gives you now. So in today's business battle, don't get caught using yesterday's technology.

Choose Data General. And choose productivity over promises. For more information, call 1-800-DATAGEN.

*Depending on application.
