News For The Employees of Data General

July 26, 1985

Data General Reports Third Quarter Results

Data General has reported third quarter revenues of \$285.5 million, compared with \$304.2 million in the prior year, a decrease of 6 percent.

The company also reported a net loss for the third quarter, which ended June 29, of \$8.3 million, or \$.32 per share, compared with an income before extraordinary gain of \$18.6 million, or \$.71 per share, for the same quarter last year. The tax rate for the quarter was adjusted to reflect a 31 percent year-to-date rate.

The loss from operations for the quarter was \$16.0 million, compared with operating income of \$28.6 million, or 9.4 percent of revenues, for the third quarter of last year.

The company had indicated in a June 17th announcement that a loss might occur. Contributing to the loss were lower than expected computer sales for the quarter, a previously announced inventory writedown of \$8.2 million to balance inventories and capacity with current product demand, and a workforce reduction of 1,400 employees which occurred in the third quarter. One-time severance costs for the workforce reduction were \$6.3 million and third quarter payroll costs for affected employees were approximately \$7 million.

Net income for the first three quarters of fiscal 1985 was \$23.8 million, or \$.90 per share, compared with net income of \$42.9 million before extraordinary gain, or \$1.67 per share, for the same period last year.

Total revenues for the first three quarters were \$939.4, compared with \$818.5 million revenues for the same period last year.

Operating income for the nine-month period was \$33.6 million, or 3.6 percent of revenues, compared with \$65.8 million, or 8 percent of revenues before extraordinary gain, in the prior year.

"We continue to experience order softness as with most of the electronics industry, particularly among our industrial/manufacturing customer base," says President Ed de Castro.

"At current business levels, I expect the fourth quarter to show a small profit or loss. A shutdown of some of the company's Manufacturing operations, ranging from a few days up to two weeks, is probable in late August or early September. While we will continue to maintain stringent controls on hiring and costs, we will proceed with new product development, automation and capital investment plans as scheduled," Ed says.

Manufacturing Shutdown Probable

A shutdown of Manufacturing operations, ranging from a few days up to two weeks, is probable for late August or early September. The incoming order rate is not clear enough to allow a final decision to be made at this time.

As in the past, Data General recognizes the need to give employees as much advance notice as possible. But, since many employees no longer have vacation available and the personal impact of a shutdown is greater, the company will wait as long as necessary to determine the minimum amount of shutdown necessary.

During the shutdown, planned around the Labor Day holiday, certain critical Manufacturing functions will not be impacted. In addition, some locations may be affected to a greater degree than others.

DASHER/One Extends CEO Functionality

Data General has introduced new business automation products that integrate departmental and personal computing functions. The DASHER/One workstation is the first in a new series of intelligent workstations. CEOwrite is a powerful word processing software package that brings CEO Comprehensive Electronic Office functionality to the MS-DOS environment. An enhanced version of the ECLIPSE MV/4000 Departmental Cluster (DC) doubles the possible number of users to 32 and offers a cost-per-

workstation of less than \$5000, depending on the application.

The DASHER/One workstation is the key element in combining personal and departmental systems because it offers users stand-alone computing power with full CEO integration. With processing power at the DASHER/One workstation, users can run applications such as Data General's new CEOwrite word processing software and permit a departmental processor to be used for additional applications.

The DASHER/One supports the MS-DOS operating environment, which lets users implement specific business applications, such as word processing, data analysis or database management spreadsheets which run on the IBM PC. It provides all of the benefits of business automation at the personal level, including: applications support (for both horizontal and vertical software applications), communication's support, and integration with larger systems at the departmental and corporate levels.

The DASHER/One is fully compatible with the ECLIPSE MV/Family of processors. As a workstation within a departmental cluster, the DASHER/One enables users to share peripherals, applications and information. The DASHER/One also is fully compatible with the DATA GENERAL/One portable computer.

With CEO CONNECTION software, DASHER/One users have instant access to CEO on a host computer or to MS-DOS-based IBM PC applications. The CEO CONNECTION also allows users to integrate DASHER/One workstations, the DATA GENERAL/One, IBM PCs and larger corporate or departmental computer systems.

The DASHER/One is designed with a small desktop footprint, a tilt-swivel display and a 12-inch monochrome (green) monitor screen.

All DASHER/One models offer users a choice of two detachable, low profile keyboards: a PC AT-style keyboard or a CEO compatible-style keyboard. Both keyboards are available in a wide variety of foreign language fonts.

The DASHER/One is available in six models with varying amounts of memory and storage, which in combination with specific applications, provide solutions tailored to the requirements of a wide range of professionals.

The DASHER/One Model 1 workstation with PC AT-compatible keyboard is available 90 days after receipt of order, and with the CEO compatible keyboard is available 120 days after receipt of order. The DASHER/One Model 2 is available 180 days after receipt of order. Basic prices for a DASHER/One range from \$2100 to \$2415.

CEOwrite, a "next generation" word processing package, runs on the DASHER/One, the DATA GENERAL/One and the IBM PC as a stand-alone word processor or can be integrated with departmental and corporate CEO systems. CEOwrite costs \$395.

The ECLIPSE MV/4000 DC computer offers departments and businesses the power and performance of a 32-bit computer at a low cost. It provides up to 32 users with simultaneous access to an extensive array of information processing resources and can accommodate up to eight megabytes of main memory and up to 240 megabytes of on-line data storage.

Upgrades are available for customers with ECLIPSE MV/4000 SC and ECLIPSE MV/4000 DC systems.

A typical ECLIPSE MV/4000 DC system, including four megabytes of main memory, 22 workstations, and CEO office automation software costs \$107,448. Deliveries are 45 days after receipt of order.

New Telephone Numbers Issued Next Week

A new phone service called Direct Inward Dialing (DID) is coming to Data General-Westboro in order to make the connection between outside callers and you faster and easier.

To familiarize employees with DID, information packets are being distributed via internal mail next week. Inside the packets will be background information, notification post cards and most importantly, your new seven-digit DID phone number.

Scheduled to kick-off Monday, August 19, DID will enable outside callers to contact a department employee at Westboro directly, without the assistance of a Data General operator. When a caller uses your DID number, the call will bypass the switchboard and be routed directly to you.

What's Your Number?

Your new DID telephone number will appear on the address label affixed to the outside of the information packet. Just peel the label off the envelope and affix it to your phone for easy reference.

Your seven-digit DID number is derived through a formula that makes use of your present internal phone extension. All DID numbers begin with the numbers "870". Then, to determine the remaining four digits of your DID number, add the number 3,000 to your present phone extension.

For example, if your current extension is 5432, your new DID number is 870-8432.

Send Postcards

Inside your informational packet are five postcards. These cards are designed to help you inform frequent outside callers of your new phone number. Additional cards are available as needed.

In order to ensure the effectiveness of DID, it is essential that your outside contacts be made aware of your new number. You may want to make a list of

those individuals and organizations who will need to be aware of the change.

To ease the transition into the new phone service, representatives have been designated throughout Westboro to respond to questions and handle the distribution of additional DID postcards.

To find out the name of the contact person in your area, contact your department secretary or John Gudgel at extension 6097 in Westboro.

Points To Remember

- Only those employees located at 4400 Computer Drive in Westboro will be affected by the new phone service.
- Your present internal extension and access code will remain the same. The new telephone number only will affect those calls coming in from outside locations. Current internal extensions will need to be used when calling other employees in Westboro.
- Data General-Westboro's present number (366-8911) will remain the same for callers who are unaware of the change and in need of operator assistance.

For More Information

Departmental representatives and interested employees are invited to attend a DID Informational Meeting scheduled to be held Tuesday, July 30 at 10:30 a.m. in the Cafeteria.

In addition, information tables will be set up in the Cafeteria during lunchtime on Wednesday, July 31 and Thursday, August 1. Stop by for more information on the new phone service or to obtain additional DID postcards.

People

In Manufacturing...

Paul Martineau has been promoted to manager of Corporate Manufacturing Human Resources responsible for Compensation, Employee Relations, Staffing, and Training and Development. Paul reports to Guy Carter, director of Manufacturing Human Resources.

With Data General since 1981, Paul was previously a Human Resources section manager in Special Systems in Southboro. Before that, he was a senior Human Resources representative in the Business Divisions in Westboro. Paul holds a BA from St. Anselm's College in Manchester, NH.

In Technical Products...

Sharon Smith and **J. Brent Bluth** have joined the Technical Products Division (TPD) in Denver, Colo., as sales promotion writers.

Sharon joins Data General from R.B. Robot Corp. of Golden, Colo., where she was manager of corporate communications.

She recently was recognized by the Rocky Mountain Chapter (Denver) of the Society for Technical Communication, receiving an Award of Merit for advertising copywriting and an Award of Achievement in the newsletter category.

Prior to joining Data General, Brent was a writer with Automated Language Processing Systems (ALPS), a Data General OEM in Provo, Utah, specializing in language translation systems.

He recently was recognized by the Intermountain Chapter (Salt Lake City) of the Society for Technical Communication, receiving an Award of Distinction for brochure copy on computer-aided translation.

**Five Year Luncheon
Reminder**

Westboro employees celebrating five years of service are reminded that a luncheon will be held in their honor on Wednesday, July 31 at 12 noon at Elizabeth's restaurant located off Route 9 in Westboro. Anyone who has received an invitation but has not yet responded should call Sheri Gebo at extension 4592 for reservations by 5 p.m. today.

CEO Training Available

Manufacturing Information Resource Management Training is offering several CEO Comprehensive Electronic Office courses to employees. All courses will be held in Westboro in the Learning Center located at Mail Stop C232.

To obtain a registration form call extension 6202 or 5038 in Westboro or send a message via CEO to Training:WEBO08. Supervisor's approval must accompany registration. All classes begin at 9 a.m.

Start Date	Course Title	Duration
8/2	Trendview	1/2 Day
8/8	CEO Decision Base	1/2 Day
8/14	CEO List Processing	1/2 Day
8/15	CEO Data Tables	1/2 Day
8/16	Present (Non-Technical)	1 Day
8/21	Trendview	1/2 Day
8/28	CEO List Processing	1/2 Day
8/29	CEO Data Tables	1/2 Day
8/30	Present (Non-Technical)	1 Day

**Upcoming Courses
For Employees**

Among the upcoming courses scheduled for Data General employees by Educational Services are the following two hardware maintenance classes:

The first, a one-day course, teaches the techniques of maintaining the DATA GENERAL/One portable personal computer. Entitled "DATA GENERAL/One Field Maintenance" (course number H123E), this course is scheduled to be held on Monday, August 5.

"Introduction to the Oscilloscope" (H130E), also a one-day course, will be held on Tuesday, August 6. This class is designed for maintenance techni-

cians who want to learn how to use the Tektronix oscilloscope. The course could also serve as a refresher class for experienced technicians. Attendees should have a knowledge of basic safety precautions and electronic circuit measuring devices.

ware and CEO Comprehensive Electronic Office courses for Data General employees on a regular basis. All courses are held at the Education Center, located at 2400 Computer Drive in Westboro. Courses are open to employees from all Data General facilities; supervisor's approval is required prior to registration.

To register for any of these classes, or for more information, call Central Registration and Information at extension 4079 in Westboro.

Lenoir Building - Suite 207
Greensboro, North Carolina 27407

Mail Code - 5I

TWX No. - K341

Phone: 919-852-2685

Travel Tip

Auto Rental Advice

Data General receives favorable corporate rates from Avis, its preferred auto rental vendor. While the Data General corporate rate is favorable, it may happen that short-term promotional rates offered by Avis in certain cities may be better than the current corporate rate.

Corporate Travel and Meeting Services (CTMS) advises employees to have the Avis counter clerk verify that they are receiving the best possible rate. As a further check that you are getting the best rate, contact Corporate Travel via CEO; address to ADM TRAVEL:ISIS. As an added benefit, employees may use the Data General rate for personal use.

Note: Other than international rentals or those in Alaska and Hawaii, Collision Damage Waiver (CDW) insurance is included in the Data General corporate rate when the car is being used for business purposes. Therefore, you do not have to take out additional insurance.

Benefits

Data General Announces Retiree Medical Program

A new medical program has been announced to meet the needs of Data General and its employees retiring on or after January 1, 1986.

The program includes:

- A new medical plan for retirees and dependents who are eligible for Medicare.
- A choice of medical plans for retirees and dependents under age 65.
- Continued Health Maintenance Organization (HMO) participation where available and chosen by the

employee; and

- A sharing of the cost of coverages between Data General and the retiree.

Medical Eligible Plan

While complementing Medicare, the plan for Medicare-eligible people will pay specified benefits regardless of Medicare payments.

Under-65 Plans

Retirees and/or dependents under age 65 who wish to be covered by a Data General medical plan, will have several options from which to choose depending on individual needs. There will be three plans, each with a different annual deductible, coinsurance amount and annual out-of-the-pocket maximum.

HMO

Medical coverage may be provided through an HMO rather than a Data General plan, if the retiree is eligible and chooses to participate in the HMO.

Cost

Data General will contribute these fixed amounts each month toward the cost of a retiree's medical coverage:

If The Employee Retires With...	Data General Contributes Up To...	
	While Under Age 65,	While Over Age 65,
20 years of service or was age 55 before January 1, 1986	\$80	\$50
15 years of service	\$60	\$37.50
10 years of service	\$40	\$25

If the cost of coverage through a Data General plan or HMO exceeds the company contribution, the retiree will pay the balance. Since Data General's contribution is fixed, the retiree's cost of coverage may vary from year to year.

Based on current costs, a retiree with 20 years of service or who was age 55 or older before January 1, 1986, would pay nothing for individual medical coverage. Dependent coverage would cost the retiree as little as \$10 a month up to \$103 a month for the most comprehensive coverage for the retiree and two or more dependents under age 65.

All employees currently eligible or becoming eligible before January 1, 1986 for early or normal retirement have received full details of the new Retiree Medical Program.

In the future, employees will receive detailed information as they become eligible for retirement under the Data General Pension Plan.

Summaries of the provisions of each medical plan will be available to all employees in the next revision of the benefits booklets.

For current retirees and any employees retiring before January 1, 1986, Data General continues to provide individual and dependent medical coverage, under and over age 65, under the same Data General Medical plan currently used for active employees.

Stock Prices Next Week

As of Wednesday, July 31, the Data General Employee Stock Purchase program will come to a close for its current six month period. Next week's -- *Mini News* -- will report the closing price. The opening price for the next six-month period will appear in the following week's issue. The Data General Employee Stock Purchase program gives employees the opportunity to purchase stock at 85 percent of the average market value announced on the first or last day of the purchase period, whichever is lower.

Activities

Action-Packed Day Awaits In LimeRock

Auto enthusiasts, thrill-seekers and the simply curious can now order tickets to the Sports Car Club of America Playboy U.S. Endurance Cup Race to be held Saturday, August 31 at Lime Rock Park in Lakeville, Conn.

The race will include a Toyota MR2, whose crew will be using a DATA GENERAL / One computer in the pit to track the car's progress. The racing auto has the DATA GENERAL / One personal portable computer's logo and the company logo emblazoned on its hood and sides.

Gates open at 7:30 a.m. The four-hour race begins after trials and qualifying runs. Discount advance tickets, which include a pass to the paddock area where autos are stored, are \$15. To order, send a self-addressed stamped envelope and a personal check made payable to Data General Activities Committee to T. Teller, Mail Stop C117 in Westboro. The park is located on Route 112 in northwestern Connecticut, easily accessible from the Massachusetts Turnpike.

Provincetown Adventure

It was smooth sailing aboard the MV Commonwealth as more than 600 Data General employees and their guests made the trip to scenic Provincetown last Saturday. The weather was perfect for exploring the many shops and beaches that line the streets of the town. All who attended enjoyed the full day in the sun and felt the outing was a big success. Below are scenes from that adventure.

Summer Outing Questions And Answers

Who is eligible to attend?

If you are a Data General employee you may attend and bring a guest or your spouse and dependent children (age 21 and under).

What is the cost for employees, guest and dependent children?

The cost is \$2 per attendee, children under two years of age are no charge.

Can additional guests be invited?

Additional guests may not be invited at the \$2 rate. In some cases, where space permits, additional tickets are available at \$15 per ticket.

Can I exchange tickets or get a refund?

Yes, but only if requested BEFORE the outing takes place.

How do I get tickets?

Fill out the order form. Make sure that it is filled out completely. An incomplete form may not provide enough information for processing. Return the form with a home-addressed, stamped, business envelope to:

- Outings, MS F036 in Westboro.
- Mail to: Data General, 1985 Outings - MS F036, 4400 Computer Drive, Westboro, MA 01580.
- Tickets will be sent to your home.

What are the beverage arrangements?

Various types of beverage(s) will be available at all outings. These may include soda, lemonade, iced tea or punch. In addition, adults may be given chits entitling them to beer and wine. In the event that some outings do not include chits, a cash bar will be available.

Who will get beer & wine chits?

Those individuals holding employee or spouse/guest tickets will be eligible for chits. However, outing vendors do have the right to ask for proper identification if there is any question as to the age of the individual. To eliminate any problems bring proof of your age.

At the amusement parks, are the rides unlimited? Are there any restrictions?

Rides are unlimited at all the amusement parks. However, park rules regarding height, weight or age will be strictly adhered to for everyone's safety.

Is there a charge for any ride or attraction at the amusement parks? All rides are free. There is a charge for miniature golf and arcade games.

Can I attend more than one event?

If you would like to purchase tickets to an additional event, fill in the additional event column of the outing order form. Tickets to additional events are \$15 each for adults and children 12 and up and \$10 for children ages 3 - 11.

When will I receive my tickets?

Tickets for each event will be sent out 3-4 weeks before the event. This enables us to handle change orders more efficiently.

Don't Wait Until The Last Minute Order Your Tickets Now!

BEACH PARTY August 10

***Steep Hill Beach
(Next to Crane's Beach) Ipswich, Mass.***
