

Mini News

News For The Employees of Data General

February 6, 1987

Stock Bought At \$27.00 New Period Price Is \$29.50

Employees who participated in the Data General Stock Purchase Program, which ended on January 30, 1987, purchased stock at **\$27.00**, 85 percent of the average market price on August 1, 1986, the first day of the plan.

Data General stock certificates will soon be mailed to participants' homes. Anyone who expects to receive stock but does not by **February 20**, should first contact Employee Shareholder Services to verify purchase, then contact Morgan Shareholder Services Trust Co. at (212) 777-6447 to find out if the certificate was returned to Morgan as undeliverable. Allow at least one week for certificate to be returned to Morgan.

For the February through July period, the opening day price was **\$29.50**, 85 percent of the average market price on February 2. Stock will be purchased at **\$29.50** or 85 percent of the average market price on July 31, 1987, whichever is lower.

For your information, the average fair market value on **January 30, 1987** was **\$33.125**.

Amendments Approved At Annual Meeting

Data General stockholders recently approved all of the proposals listed in this year's Proxy Statement.

Ninety-nine percent of the stockholders voting elected the five directors of the company as set forth in the Proxy Statement. Those directors are Ed de Castro, Herb Richman, Fred Adler, Ferdinand Colloredo-Mansfield and John McArthur.

Also approved was the proposal which called for an amendment to the Restricted Stock Option Plan. It was approved by 64 percent of the voting stockholders. Approval of this amendment increases the number of shares of common stock that may be issued through the plan to 10 million from seven million.

A proposal which asked for an amendment to the Employee Incentive Stock Option Plan was approved by 71 percent of the stockholders voting. Approval of

this amendment increases the number of shares to four million from three million. Approval of the Restricted Stock Option Plan and the Employee Incentive Stock Option Plan amendments will help the company to attract and retain key employees.

Nearly 78 percent of the stockholders voting approved the proposal which addresses the Employee Qualified Stock Purchase Plan. This amendment will increase the number of shares available to employees to purchase at discounted prices to 3.6 million from 2.6 million. This increase will better enable employees, who might not otherwise be able to do so, to acquire stock in Data General.

Seventy-five percent of the voting stockholders approved the amendment to the Restated Certificate of Incorporation. This stockholders' vote eliminates the board of directors from personal liability for monetary damages resulting from certain stockholder complaints based on the judgement as to what is best for the company.

The amendment which allows the company to enter into Indemnity Agreements with its directors and officers was approved of by 75 percent of the voting stockholders. This amendment protects directors and officers against certain liabilities and expenses arising out of legal proceedings brought against them by shareholders. Both proposals will help attract and retain officers and directors, ensuring that the company is managed consistently.

CEO Graphics Enhanced

Data General has enhanced CEO office automation software graphics by introducing DG/Fontstyles software and by integrating new business graphics capabilities with CEO Decision Base software.

With DG/Fontstyles software, an additional twelve presentation-quality typefaces may be used with existing Data General graphics software packages CEO Drawing Board, TRENDVIEW, and WORDVIEW. Users of the enhanced version of CEO Decision Base can create charts from spreadsheets or data tables with a single keystroke.

"With these enhancements, CEO users can add high-quality graphics to business presentations quickly and easily," says David Lyons, vice president of Group Marketing. "And since these packages are fully integrated with CEO office automation software, now more than ever, CEO is the best choice for business automation."

With enhanced CEO Decision Base, a single function key selects data from spreadsheets or data tables to create a chart which can be saved in the CEO filing system as GKM (Graphics Kernel Metafile) documents then edited using CEO Drawing Board. CEO Decision Base is integrated decision support software for spreadsheet, personal data base, and charting applications that now include bar, pie, line, x-y (scatter), and surface chart options.

DG/Fontstyles is designed for the Data General AOS/VS operating environment and supports six filled and six unfilled font styles as well as international character sets. The new package provides true graphics-arts-quality font capabilities licensed from Bitstream Inc., Cambridge, Massachusetts, a leading vendor of digitized fonts. DG/Fontstyles is a separate software package which can be bought to enhance the presentation quality of other Data General graphics software packages that are fully integrated with CEO office automation software including CEO Drawing Board, CEO WORDVIEW, TRENDVIEW.

CEO Drawing Board is an interactive, two-dimensional, graphics program that is fully integrated with the AOS/VS CEO environment and provides CEO users with freeform drawing and graphics editing capabilities using an icon-based menu interface. With CEO WORDVIEW, CEO word processing documents can be converted directly to a user-specified word chart format without manual re-typing to produce near-typeset-quality word charts. And TRENDVIEW graphics display software, when integrated with CEO PRESENT information presentation facility, can be used to create charts and line graphs from tabular data on a wide variety of monochrome and color Data General graphics display terminals.

Ron Lincoln Named Director Of JBD

Ron Lincoln has been named director of the Japanese Business Development (JBD) group, responsible for overseeing business activities taking place between Data General and Nippon•Data General. Ron reports to Bob Miller, senior vice president of the Information Systems Group. Ron also serves as a member of Nippon•Data General's Board of Directors.

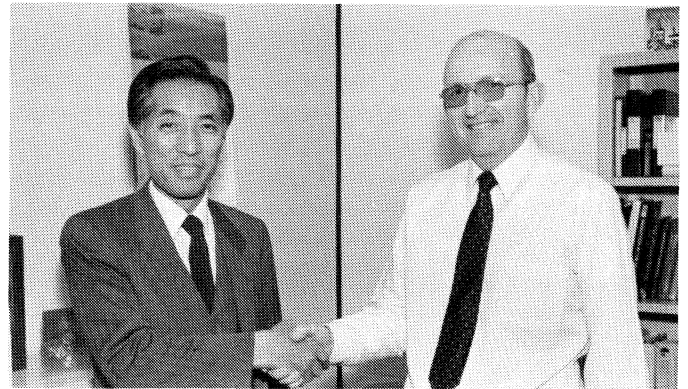

Ron has been with Data General since 1976, and for the past seven years he has held a series of management positions within JBD. Most recently, he was JBD Operations manager, responsible for business involving Nippon•Data General's Manufacturing, Finance and Field Engineering organizations. Before that, he was

JBD Manufacturing manager.

Prior to joining the JBD group, Ron worked in Corporate Manufacturing as an Industrial Engineering section manager and senior industrial engineer. Before joining Data General, Ron was with the Foxboro Company 10 years.

Ron holds a master's degree in engineering management from Northeastern University and a bachelor's degree in industrial management from Lowell Technological Institute (Lowell University). He has served as a lecturer in the engineering department at Boston University.

Reporting to Ron within JBD are: John Blakely, Engineering manager; Wayne Whistler, Product Marketing manager; Howard Glassman, Marketing Support manager; and Dan Gacetta, Manufacturing manager.

As Director of Japanese Business Development (JBD), Ron Lincoln will work closely with Hisashi Tomino, Data General vice president and Nippon•Data General president.

"Focus On The Future" Comes To Milford

Nearly 600 Field Engineering employees from Westboro, Milford and Woodstock met in Milford last month to "Focus on the Future."

Reflecting on the meeting, Dick Camuso, Data General's senior vice president for Worldwide Field Engineering, says, "The "Focus on the Future" session allowed us to communicate Field Engineering's goals to everyone and discuss the direction of our business. Both Field Engineering and Data General as a whole have a great deal of positive things going for them. Through this meeting, we were able to clear up some old business and begin focusing on our future, which is bright."

In his remarks Dick stated that the success of the worldwide Field Engineering Division was evident in that for fiscal 1986 the division generated annual revenues for Data General of nearly \$400 million, which is almost as large as a company breaking into the Fortune 500. He attributed this success to all worldwide employees. Speaking on a broader term Dick pointed out that from the product line and organizational standpoints, Data General is strongly poised to remain a success in the computer industry.

Also speaking at the meeting were: Bill Bentley, vice president North American Engineering; Fred Cochrane, vice president of Engineering Services; Tony Nicoletti, vice president of Support Services; Larry Pitterman, director of Human Resources and Ernie Hantavis, director of Finance. A question and answer session followed the presentations, covering business directions, organization, morale, compensation and work location.

Following the meeting was an open-house where employees had the opportunity to view Data General's latest "pieces of art" including the ECLIPSE MV/15000 computer. Also on display was an ECLIPSE MV/2000 computer, a DASHER/One computer, a DASHER 286 terminal, a Data General/One computer as well as Data General peripherals. The On Line Information Service (OIS) also was demonstrated to show how customers can receive software and hardware support via a computer. The session included videos of the Data General Team Tyrrell Formula 1 racing crew, and recent television advertisements on networking products.

People

Lloyd Altman recently has joined Data General as a software engineer within the Systems Development Division. Lloyd will be responsible for enhancing current graphic products. He reports to Eric Campbell, section manager of Graphics Software.

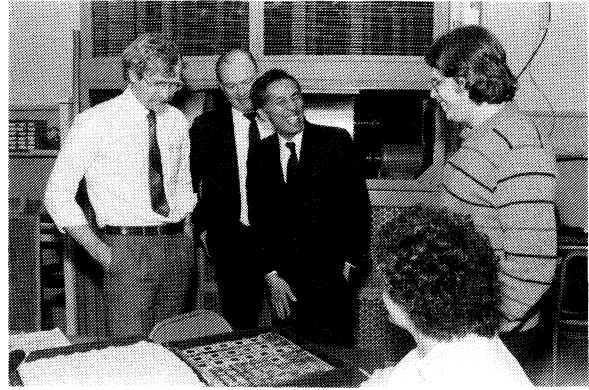

Prior to starting at Data General, Lloyd had been a programmer and consultant at Columbia University, a principal cellist and personnel manager for the Fairfield Chamber Orchestra, and a faculty member of Brooklyn College Conservatory of Music and the Eastman School of Music. Lloyd holds a bachelor's and a master's degree from Eastman, and a master's degree from the Columbia School of Engineering.

John Blakely and **Howard Glassman** recently have been assigned managerial positions within the Japanese Business Development (JBD) group. They both report to Ron Lincoln, director of JBD.

John is an engineering support manager, serving as a liaison and coordinator between engineering groups in Westboro and Data General's Japanese subsidiary, Nippon•Data General. John has been at Data General for nine years. He holds two bachelor's degrees, in computer science and electrical engineering, and a master's degree in business administration.

Howard is a marketing support manager responsible for developing and introducing successful service and support programs for the ECLIPSE MV/Series product line. He has been with Data General for three years. He holds a bachelor's degree in business administration.

Development Tour

Nippon•Data General President Hisashi Tomino takes the opportunity to tour development labs in Westboro (top photo) and Durham facilities last week with Bob Miller, senior vice president of the Information Systems group. Hisashi's tour of the labs came after his speech delivered to Westboro employees last Tuesday. At that time, Hisashi told employees that they should learn from slowdowns in business so that "they can grow stronger and tougher." He pointed out that the slumps in business can provide companies with a "springboard" affect for future growth. As a result, employees should not fear slumps, but exploit them and learn from them. Hisashi closed his remarks by pointing out that Japanese companies which have grown vigorously over the long-term have suffered many more slumps than those which experienced slow growth.

Milestones

The following employees celebrated service milestones with Data General last month:

Westboro

Benefits

Benefits Statements

A "Personal Statement of Benefits" was mailed to employees the week of January 19. The statement is a personalized illustration of the benefits received by employees as part of the total Data General compensation package.

The information in the statement reflects benefits in effect on October 1, 1986. Therefore, employees hired after October 1, or those not eligible for benefits on October 1, will not be receiving a statement.

If you have not received a statement or have any questions on the material contained within the state-

ment, contact your Human Resources representative or Benefits administrator.

Need Assistance With Benefits?

The following is a list of whom to contact for assistance with questions relating to your benefits:

Medical/Dental/Life/Disability

Manager: Camillo Davis CEO Host:ZEUS X4619

If your name begins with:

A - F Chris Buxton CEO Host:ZEUS X4584
G - N Angela Rothera CEO Host:ZEUS X4586
O - Z Carol Walsh CEO Host:ZEUS X4576

Savings & Investment/Pension/Stock Purchase

Manager: Charlie Doherty CEO Host:ZEUS X4555

If your name begins with:

A - E Lisa Jablonski CEO Host:ZEUS X4558
F - K Kate Oftring CEO Host:ZEUS X4519
L - P Ellen Stefanik CEO Host:ZEUS X4570
Q - Z Sandra Garraway CEO Host:ZEUS X4520

Savings & Investment Plan Quarterly Statements

Employees participating in the Data General Savings & Investment Plan will be receiving a quarterly statement next week.

The statement will reflect all account activity for the period of October 1 through December 31, 1986. It will also reflect the amount of loan interest repaid on loans during 1986 for the purpose of tax deductibility.

If you do not receive a statement by February 16, or have any questions regarding your statement, contact Lisa Jablonski in Corporate Benefits at extension 4558 in Westboro.

W2s On The Way

Data General employees required to file their earnings with the U.S. Internal Revenue Service and/or state taxing agencies may have received as many as five separate W2 forms for 1986. These forms may be:

- 1986 Earnings Statement
- Car Allowance
- Group Insurance
- Stock Option
- Relocation

All W2s were post-marked and mailed on or before January 31. If you have any questions concerning your

W2 forms, contact the Payroll department via CEO at Payroll on host system FIN7.

Employees who want to contact the Payroll department by telephone, and have questions about their W2s for their 1986 Earnings Statement, Car Allowance and/or Group Insurance, can call Nancy Gregoire in Manchester at tie-line 237, extension 1569.

If you have questions about your Relocation W2, call Paul Lazar at tie-line 237, extension 1550.

If you have questions about your Stock Option W2, call Joan Haigh at tie-line 237, extension 1577.

W2s For Life Insurance

Many Data General employees recently received W-2 statements for their Data General group life insurance. In accordance with IRS regulations, any life insurance in excess of \$50,000 provided under a group plan is considered taxable income. The amount of the "imputed income" is calculated on the basis of a table established by the IRS. It is directly related to the amount of insurance in force and to the age of the covered employee. Any contributions you have made toward the cost of the coverage have been deducted from the income shown on your W-2

The amount reported on the W-2 is additional taxable income which must be reported on your 1986 income tax return. Any questions pertaining to these W-2 statements should be directed to Payroll:FIN7.

Tax Forms Available

Starting Monday, individual federal and state (Massachusetts) income tax forms will be available in the literature rack outside the Westboro pizzeria. Availability is limited, so employees should take no more than two of each and only those that are needed. Forms that do not appear in the rack should be obtained through the Internal Revenue Service, a bank or other public distribution location. Employees should not contact the Corporate Tax department for forms or assistance.

Westboro

A One-Way Event

The traffic lane immediately adjacent to the visitor circle stairs and the west employee entrance in Building 14A, is for one-way traffic only. Direction of the traffic is south only, or heading toward Route 9. Similarly, cars parked in this lane should be headed in the same direction as the traffic flow.

CPR Graduates

The following Data General employees in Westboro successfully completed the CPR course for basic life support providers:

Dennis Lindenburg
Frank Pinto
Robin Cohan
Laurie Ely
Stu Warnsman
Debbie Snow
Barbara Donovan
Pat Young

Anyone interested in taking CPR classes should contact Nurse Helen Royal at extension 4542 or via CEO at host system TITAN. Classes are held monthly.

Activities

Globetrotters Sold Out

Tickets for the Harlem Globetrotters performance at the Centrum have been sold out.

Atlantic City Weekend Planned For April 3-5

The Data General Employee Activities Committee has made plans for an expedition to Atlantic City. The group will depart from Westboro at 5 p.m. on Friday, April 3 and arrive in Atlantic City around 11:30 p.m.

Those going on the trip will be staying at the Harrah's Marina Hotel and Casino. The group will depart from Atlantic City at 2:00 p.m. Sunday, April 5, arriving back in Westboro in the evening. Tickets are \$149 per person for double occupancy, \$145 per person for triple or quadruple occupancy, and \$209 per person for single occupancy.

Optional tours
available:

Buffet dinner at Harrah's \$10
Casino Review Show \$10

If you would like to attend, make out a check payable to Data General Employee Activities Committee. Send your requests to Atlantic City at Mail Stop C-128 in Westboro. Payment in full is required to make reservations. No reservations will be accepted after February 27.

Entertainment 87

Discount dining books for the Boston area are available through the Employee Activities Committee. Books are \$20 each and may be purchased in the Activities office in Westboro.

Upcoming Events

Ringling Bros. Barnum and Bailey Circus at the Centrum
 Family Day at the Computer Museum on March 14
 Family Day at Sturbridge Village on March 22
 Details will be provided in the next few weeks.

J:ZETA or Peeke D:EWD, or Mail Stop F213. There are openings for alternates who would like to bowl on a part-time or full-time basis.

DATA GENERAL ASKS: WHAT WILL YOUR OFFICE SYSTEMS COST YOU DOWN THE ROAD?

OUR CEO® BUSINESS AUTOMATION SOLUTIONS GIVE YOU THE LOWEST COST OF OWNERSHIP.

Bypass the high cost of other companies' office automation systems. With Data General's line of fully compatible computers. The industry leaders in productivity.

Our new MV/20000™ provides superior price/performance. Better than DEC's VAX™ or IBM®'s 4300 series. While our MV/2000DC™ sets the standards for departmental computing systems.

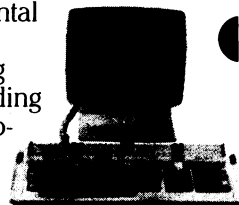

We take you beyond office automation. By integrating mainframes, PC's and applications into our industry-leading CEO Business Automation. And by cost effectively distributing your information resources.

We also protect your investment with our commit-

ment to industry standards in communications and data management.

It all adds up to advanced Business Automation solutions. To give you the lowest cost of ownership.

All of which makes Data General the best route to take. For more information, call 1-800-DATAGEN (in Canada call 1-800-268-5454). Or write: Data General, 4400 Computer Drive, MS C-228, Westboro, MA 01580.
